Title: MODULAR TABLE TOP DISPLAY APPARATUS

September 21, 2006

Office of Patent Publication/Publishing Division:

This supplemental amendment is in response to a Notice of Drawing Inconsistency with Specification (Form PTOL-37), mailed 09/14/2006, wherein Figure 7F is contained in the Drawings but not listed in the Brief Description of the Drawings in the Specification. One month was granted as the period for response.

Please amend paragraph [0020], to read as follows:

[0020] FIG. 7B is a perspective view of a right angle connector. **FIG. 7F is a perspective view of an alternate right angle connector with a circular end and a press fit end, with an aperture extending through the circular end of the connector.**

This inconsistency is thereby corrected by addition of description in **bold** print included above, and no new matter has been added. Please proceed with the issuance of this patent, as a Notice of Allowance has already been received.
